-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Claims 7, 8 and 24 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse from the response received April 20, 2004.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-6 rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Applicant from claim 1, line 9, recites a "collective data set" but does not describe such language in the rest of the specification. As is it is not clear what Applicant means by this claim terminology.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

5. Claims 1-6, 9-23, 25 and 26, as understood, are rejected under 35 U.S.C. 102(e) as being anticipated by either Mikurak, US 6,671,818, or Mikurak, 6,606,744.

Koppleman discloses a computer, e.g. 100, used to determine a commission, e.g. 218, credited to a distributor based upon credential information, e.g. transaction information 200 containing properties and/or quotas. Using XML language would have been inherent.

Mikurak '744 discloses a contract with a distributor for selling a product where commissions are determined from collective credential information, e.g. Figs. 16, 17, 18, 19, 24, 64, 65, 128, 132, 133, cols. 89, 90, 100, 133, 170, 200, 219. Using XML language would have been inherent.

Mikurak '818 discloses a contract with a distributor for selling a product where commissions are determined from collective credential information, e.g. Figs. 16, 17, 18, 19, 24, 64, 65, 128, 132, 133, cols. 89, 90, 100, 133, 170, 200, 219. Using XML language would have been inherent.

6. Claims 1-6, 9-23, 25 and 26, as understood, are rejected under 35 U.S.C. 102(e) as being anticipated by Koppleman et al., US 6,662,164.

The applied reference has a common assignee with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not the invention "by another," or by an appropriate showing under 37 CFR 1.131.

7. Further pertinent references of interest are noted on the attached PTO-892.
8. Applicant's Information Disclosure Statement was given a cursory review, in part. It is noted that Applicant did not specifically point out the pertinent features presented in the IDS. Also, the numerous serial numbers referenced were not reviewed as no copies thereof were received. Note attached PTO-1449.

Drawings

9. The drawings received on June 29, 2001 are acceptable.

Conclusion

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrew Joseph Rudy whose telephone number is 703-308-7808. The examiner can normally be reached on Tuesday thru Friday, 7:30 a.m until 6 p.m..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mr. Robert Olszewski can be reached on (703) 308-5183. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
